

# get **VIRTUAL** now

with Microsoft Learning

Microsoft is the only company that provides an end-to-end suite of virtualization products and technologies—all tied together by a centralized, policy-based management system.

Microsoft Learning offers a complete set of training and resources and streamlined certification paths to help you make the most of these technologies. Demonstrate your expertise on Windows Server 2008® with Hyper-V™, Microsoft System Center—including Virtual Machine Manager 2008—and Microsoft Desktop and Application Virtualization. With a Microsoft Certification in Virtualization, you'll be the first to deploy, manage and get VIRTUAL now like never before.

## Realize the benefits of Virtualization with training from Microsoft Learning.

- Why certify? Establish your skills and credentials with Microsoft Learning to stay ahead of the curve and ensure that hiring managers notice you. Microsoft Learning offers a complete set of training resources and streamlined certification paths to help you stand out in your field.

## Demonstrate deep technical knowledge or breadth of technology skills: MCTS

Microsoft Learning offers four Microsoft Certified Technology Specialist (MCTS) certifications on Virtualization—all designed to validate your skills on the features and functionality of the key technology areas:

- Windows Server 2008: Hyper-V
- System Center: Virtual Machine Manager
- Terminal Service Virtualization
- Application Virtualization

To get started, review the roadmap below to determine the certification you are interested in obtaining, and then find the course(s) and learning resources that will help prepare you for the exam.
